

# SchoolTool API Configuration

Modified on: Thu, 14 Sep, 2017 at 2:22 PM

Below is the initial API configuration screen. Your screen may be a little different.

You will need to add us as a vendor, assign a token and add the IP address.

Next, allow us access to the following files (you may have them named differently):

School

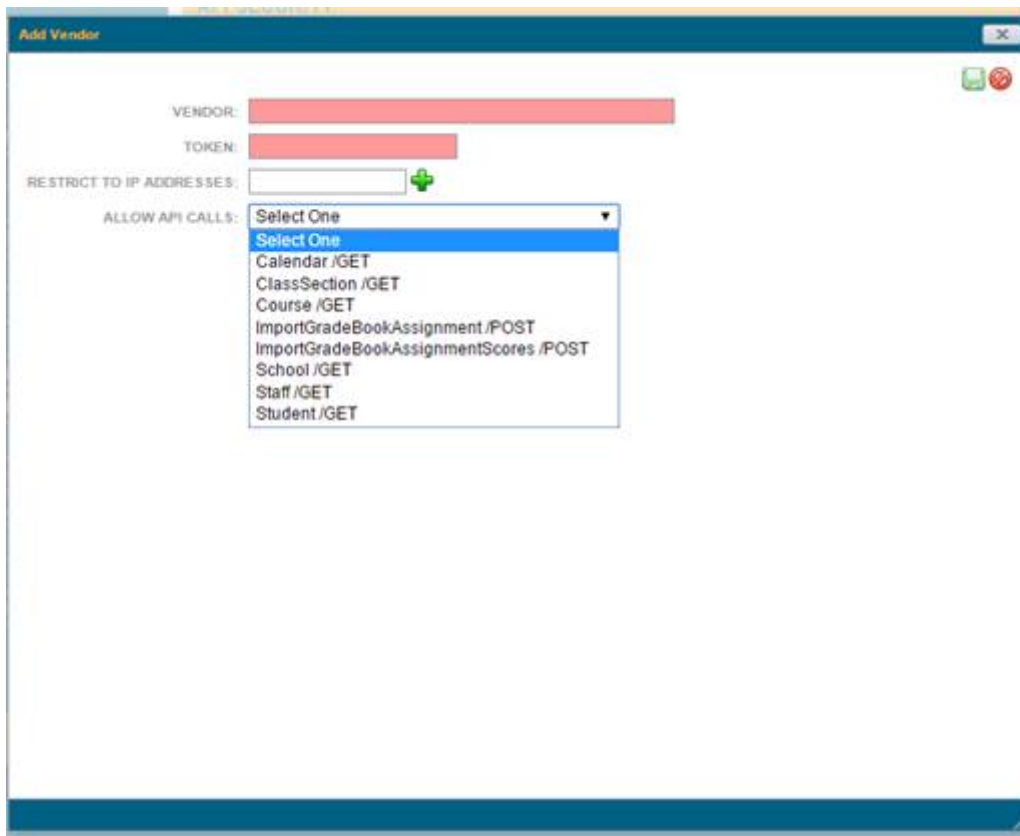

Staff

Student

Classes (Course and Class Section)

Student Roster

Additional Teachers

**Add Vendor**

VENDOR:

TOKEN:

RESTRICT TO IP ADDRESSES:  +

ALLOW API CALLS: **Select One**

- Select One
- Calendar /GET
- ClassSection /GET
- Course /GET
- ImportGradeBookAssignment /POST
- ImportGradeBookAssignmentScores /POST
- School /GET
- Staff /GET
- Student /GET

## SchoolTool Configuration Page

- Just complete last section (indicated below in RED)
- Check the box to enable the API
- Enter a password in the Authentication Token box
